I would appreciate any correspondence pertaining to these patents be sent to me as soon  
as possible; I am unsure of the status of the patents, the only thing I am sure of is two  
mortgage payments and monies borrowed from private people to try to maintain the  
patents. The attorneys will no longer handle these for various reasons one being my  
refusal to pay any more un-itemized bills.

being the reason for this letter. My accountant and I will handle things from here on. I

would like to take this opportunity to thank you for anything the US Patent Office can do to help us through this. We will respond to any inquiries from patent personnel in a timely fashion. I would also like to extend my gratitude to the three parties I spoke to from the US Patent Office on Thursday they were very courteous and helpful and quite the opposite of the picture painted by the patent attorneys.

Thank you,
